#### **FARM**

The month of March proved to be the wettest month that anyone can remember in a long time. We experienced extreme flooding at all farms. During the month we had over 12 inches of rain at all locations.

The fourth annual horse sale was held on March 12. We sold 38 horses. Our crowd seemed to be down in number, but we had several bidders. I have received feedback from several buyers that they are very pleased with their horses and look forward to next year's sale. The average selling price was \$764/ horse. The highest priced horse was a gray gelding used at the Cummins beef herd. He sold for \$4,150.

Vegetables are being planted statewide in all gardens. Due to the cool temperatures and wet conditions, progress is slow.

The Cummins farm has all of the corn ground ready. They planted about 400 acres of rice. The Tucker farm put their preplant fertilizer out and will be tilling most of their rice acres this year. The EARU farm worked on getting their garden off to a good start and prepared their ground for corn and milo.

The bulls were pulled from the Cummins beef herd. Staff is setting up new irrigation at Cummins for hay production. They will be planting Alfalfa & Bermuda grass to increase hay production.

The NCU horse program is working on building new fences on ADC property to increase pasture and hay production. They will start a program clearing up the additional property purchased by the agency and other areas to add more pastures.

The winter flooding took a toll on fences at all Units. Farm staff will be using squads to help clear pastures of debris and fix fences.
