Riverside Vocational Technical School

AGENCY HIGHLIGHTS:

Welding Instructors Charles Ward, EARU, Burt Van Horn, ORU, and Lee Huthchison, Varner Unit, attended a two day intense refresher course with the Welsco Training Facility consisting of hands on training in multiple welding disciplines. Included in this training was standard stick, MIG, TIG, spray and pulse welding. Training covered multiple types of welding machines, plasma cutters, benders and future technological trends and equipment. This also provided a chance to standardize RVT's welding programs and exchange instructional techniques.

The EARU CAT class designed and built a power point presentation highlighting courses offered at EARU campus. In working with EARU administration, they were able to add this presentation to the morning informational programing which plays in living areas each morning throughout the unit.
