Internal Control and Compliance Assessment

Legislative Joint Auditing Committee

Educational Institutions Financial and Compliance Audit Section

Riverside Vocational Technical School

June 30, 2018

INTRODUCTION

This report is issued to inform the Legislative Joint Auditing Committee of compliance with state fiscal laws and regulations as well as deficiencies in internal controls for the Riverside Vocational Technical School. Assessment procedures disclosed no reportable items of noncompliance.

SCOPE AND METHODOLOGY

We performed an internal control and compliance assessment of the Riverside Vocational Technical School, a vocational technical school of the State of Arkansas, as of and for the year ended June 30, 2018, and have issued our report dated February 28, 2019. Management of the Riverside Vocational Technical School is responsible for establishing and maintaining internal controls and complying with applicable laws and regulations.

The assessment included cash on deposit, accounts receivable, expenditures, liabilities, capital assets, and data entry to the Arkansas Administrative Statewide Information System (AASIS). The assessment consisted principally of inquiries, observations, analytical procedures, and selected tests of internal control policies and procedures, accounting records, and other relevant documents. We relied on financial data in AASIS recorded by the Riverside Vocational Technical School and audit work conducted in the fiscal year 2018 State Comprehensive Annual Financial Report (CAFR) and Single Audit Report. The methodology used in conducting this assessment was developed uniquely for this engagement and, therefore, was more limited in scope than an audit or attestation engagement performed in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States.

RESULTS OF ASSESSMENT

Assessment procedures did not disclose instances of noncompliance considered reportable.
