FARM

September continued to be an extremely dry month, but that fit very well with our harvest. The harvest was in full swing during the month at each of the row crop farms. Cummins harvested all of their rice without putting a rut in the fields. That will be a huge time and money savings for us next spring. Tucker finished their rice as well. Both farms had excellent yields this year. Both were in the 180 bushel range. There were a lot of farmers who were well under 150 this year due to the heat. Our supervisors did a great job. East Arkansas had a problem with the sugar cane aphid in their grain sorghum, but still had good yields for the year. Cummins has harvested almost 1,700 acres of their soybeans and are waiting on more to get ready. Tucker has harvested over 400 acres of beans and are about to catch up with what is ready. East Arkansas has started their soybean harvest this week. The yields are varying greatly due to soil type and variety. So far we are ranging from 40 bushels per acre to 78 bushels per acre. The best part of this extended dry spell is the work we are able to do preparing for next year. Cummins has spread chicken litter and fertilizer on almost 3,000 acres and has most of that bedded and ready for next year's crop. Tucker and East Arkansas are working on discing stalks in and applying fertilizer as well. These are all things that we usually have to do in March and April.

The poultry division is back on track. We moved the pullets we had raised into their laying house. Their production is steadily rising. At this time we are able to supply all of the ADC needs. We were able to find a group of birds to replace what we lost in the power failure. They started arriving Sept. 30. We should be up to full production by mid-October. We are waiting on the bid process for the new generator. We have a rental unit on hand

now until the new one arrives. The new generator will be the primary back up and the older existing generator will be the secondary.

Due to the drought conditions, the fall garden crops are struggling. We are trying to water these crops, and that is very risky.

The beef units are still watering grass where they can to make hay. We were hoping to go into winter with some grass stockpiled in the pastures but we are grazing that now. Martin does have a plan to plant a lot of winter grasses to make up for any lack of hay. We are going to be short on oats for horse feed this year. We are exploring different options for feed during the winter.

The dairy had a rough month battling somatic cell count. They finally got that straight and under control. Their production is starting to rise again with the cooler weather. November will be a big calving month for the dairy.

The reporting features that INS (Information Network Systems) has developed for the ARStateJobs website (all agencies) have been implemented. We have requested agency specific features, but have not received notification that those changes have been made. Because of duplicating information, we are now only tracking CO I applications through the ARStateJobs website. This site does not have the capabilities to give us a breakdown. INS still has not developed any agency specific request for reporting purposes.

The report through AR State Jobs provides the following information:

INFORMATION TECHNOLOGY

Unitrends has been selected as the data backup and off-site disaster recovery software solution. We will continue to test and attempt to 'break it' through October to verify our decision before moving forward with a possible purchase. Unitrends has been the only solution capable of backing some of our locations like North Central and Central Office consistently. We are working on the quote for both a one-year and three-year license agreement.

Several legislatively required eOMIS development projects are in process:

- ACT 1201 County Jail Invoice changes to 30-day cycle
- ACT 973 Sex Offender notification to PA 120 days

In-Service Division

Train the Trainer: Learning Transfer Impact, the Department's Instructor development class, was held the first full week of September at the Academy. This class is designed for those who teach. Students began by learning the elements of defendable training and the role it plays in the instructional environment. Then, they were able to actually design and develop their own lesson and present it to the facilitators of the class. After the solo presentation, students were able to improve their skills even more by giving a group presentation.

Sept. 8-10 brought another installment of *Management Level 2* training. This mandatory training includes *Rethinking Retention, PREA Investigations for Supervisors, Solutions for the Correct Care of Inmates* and more. One new course added this year is a section on ACA and its importance for senior staff. Supervisors at the rank of Lieutenant and above take this course.

On Sept. 15, a new class, Hospital Escorts with a Taser, was conducted with Gary Hill instructing. Several area hospitals do not allow a firearm due to the effect it may have on the patients.

The focal point for this month is the new and improved Field Training Officer Class. This course is designed for staff that will work side by side with cadets and train them on how to accomplish their jobs. The FTO program is steered using the FTO Manual which encompassed the Mockingbird Program. This means using our best staff to model for our new staff. Components of the training focus on not only the teaching aspect, but the retention of the employee.

eCADEMY

During the month of September 2015, 283 ADC employees completed a total of 3,358.00 hours of eCADEMY training.
