

# **The Division of Community Correction**

## **Arkansas Department of Corrections**

**Annual Report**  
**Fiscal Year 2020**

**Jerry Bradshaw - Director**

# Director's Message

The Division of Community Correction (ACC) is pleased to submit its Annual Report, which provides a summary of the status of the division and the populations it served between July 1, 2019, and June 30, 2020.

ACC is responsible for community supervision, care, and custody of the largest criminal justice offender population in the State of Arkansas. At the end of the fiscal year, ACC had more than 68,000 offenders under adult parole and probation community supervision (including drug courts) and in its licensed drug/alcohol treatment residential community-based correctional centers and technical violator programs.

ACC experienced a challenging year while navigating numerous hurdles brought about by the COVID-19 pandemic. The Arkansas Department of Health provided a great deal of assistance in navigating around obstacles brought about by the pandemic.

ACC thanks you for your current and prior years' support, as we look forward to a new fiscal year, meeting the new challenges and serving to improve public safety, positive change in criminal behavior, and our communities.

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry Bradshaw". The signature is fluid and cursive, with a large initial "J" and "B".

Jerry Bradshaw, Director  
Division of Community Correction  
Arkansas Department of Corrections

# COVID-19 Response

The end of 2019 and the beginning of 2020 ushered in a global pandemic the likes of which had not been seen since around 1918 when the Spanish Flu blazed throughout the world.

The COVID-19 pandemic is an ongoing pandemic of coronavirus disease 2019 (COVID-19), caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). It is the successor of the 2002–2004 SARS outbreak, which was also caused by a coronavirus. The novel virus was identified in Wuhan, China, in December 2019; a lockdown in Wuhan and other cities in Hubei province failed to contain the outbreak, and it spread to other parts of mainland China and around the world. The World Health Organization (WHO) declared the outbreak a Public Health Emergency of International Concern on January 30, 2020, and a pandemic on March 11, 2020.

Richard Richardson

Arkansas began to see cases of COVID-19 as early as March, and soon some state employees were allowed to work from home if their position allowed.

Others, including many ACC employees, continued to work while taking safety precautions such as wearing a face mask, social distancing, frequent hand washing and staying home if not feeling well.

The first state employee to succumb to COVID-19 was Richard Richardson who began his employment at ACC's Central Arkansas Community Correction Center in June 2019 where he served as a Treatment Coordinator.

He came to the Division of Community Correction with years of experience in the treatment field. Richardson showed a great deal of dedication to his job as a Treatment Professional. Treatment is at the core of the ACC mission, and he played a key role at CAC in changing lives. Richardson became an Arkansas Razorback when was recruited by Arkansas Razorbacks football coach Lou Holtz. SRT Officer Arzo Johnson and Area 9 Manager Brian Holt remember playing football with Richardson (Johnson) at Central High School and against him (Holt). He was an accomplished Nose Guard. Richardson passed away April 9, 2020. His spirit and presence is greatly missed by all who knew him.

In response to the presence of COVID-19 in the Community Correction Center in Little Rock, ACC has been following guidelines provided by the Arkansas Department of Health for reducing the spread of the virus within correctional facilities. Those guidelines are posted on the ACC website and include:

- Inmates who screen positive for symptoms and/or fever are immediately isolated. Onsite medical personnel notified ADH for priority testing. The wing involved will be considered high risk if an inmate is considered a suspect or tests positive. ADH will guide on aggressive screening and testing in this situation.
- No movement of inmates across units (other than intakes following an isolation period or for an emergent security reason) and once in a unit no movement across various barracks (if practical).
- Dedicated staff assigned to barracks and no cross movement of staff to various other barracks (when practical based on staffing availability).

# The Division

## ACC Mission Statement

“To enhance public safety by enforcing state laws and court mandates through community partnerships and evidence-based programs that are cost efficient and hold offenders accountable while engaging them in opportunities to become law-abiding, productive citizens.”

## Vision

Public safety is paramount in our supervision, sanctions and services that facilitate positive change in offenders.

## Motto

Serving Justice

## Philosophy

We place priority on public safety while providing opportunities for positive change.

## Core Values

- Accountability – We accept responsibility and consequences for our actions.
- Integrity – We exhibit professional conduct with the highest ethical standards.
- Honor – We serve the public in a manner that exhibits good qualities and character.
- Justice – We employ equitable processes ensuring fair outcomes that promote public safety.
- Loyalty – We support and show allegiance to the ACC mission, goals, and objectives.
- Duty – We fulfill the responsibilities of our jobs in accordance with laws, policies, and procedures.
- Teamwork— We work together as “one team” for the success of the agency.

# Goals

To provide appropriate and effective supervision of offenders in the community

To provide for the confinement, care, control and treatment of offenders sentenced to or confined in community correction centers in an adequate, safe and secure environment.

To develop and implement sanctions, programs and services needed to function within the scope of the mission.

To improve staff recruiting, retention and training efforts.

# The Year in Review

The Northwest Arkansas Community Correction Center in Fayetteville, along with Area 1 Parole and Probation, participated in a Fill The Bus campaign to provide for back to school supplies for local children. Staff gathered approximately 700 items for school children in need.

In July, a pilot program was created by Restore Hope partnering with the East Central Arkansas Community Correction Center that incorporated eight to ten female residents who recently were awarded their Welding Certificate from ASU Mid-South. The program establishes partnerships with outside agencies who are looking to employ welders in their respective areas of the state. These individuals are completing their “Smart Resumes,” which will be referenced to the potential employers offering to immediately employ our offenders post release. Restore Hope plans to expand this program to offer assistance for individuals who are completing other programs, such as the facilities forklift and boiler certification programs.

Northeast Arkansas Community Correction Center employees donated backpacks to local schools and resident family members. There were 175 backpacks filled with various school supplies and donated to schools in Osceola, Blytheville and other local Mississippi County schools.

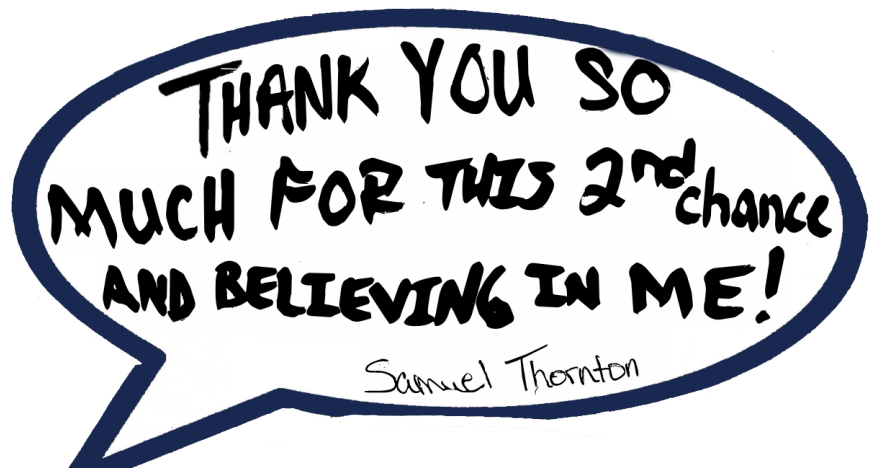

College courses have had a positive impact on the residents at the Southwest Community Correction Center in Texarkana. Based on feedback received by staff, many found new purpose in the program. During the semester, 84 students completed the college program and shared their thoughts with staff saying -

- “I am the only member of my family to go to college and I thank all of you for the opportunity. Thank you.”

- “Thank you for taking the time to help us when most others have given up on us. It means a lot to be able to have a second chance at an education. Thank you.”

- “I learned to much this semester about business and how to start and maintain one. Now I am confident I will strive to make my business successful.”

- “The thanks I would try to give are in no comparison to how grateful I am. My future is bound for brighter things and my children have a father they can be proud of thanks to you.”

The Northwest Center’s staff and employee corporation pulled together care packages that were sent to deployed military personnel in Afghanistan and Korea through the USO.

The Northeast Center in Osceola partnered with the Literacy Council to do “Books for Dad.” Each resident was allowed to pick one book per child and record themselves reading it to them and also leave them a brief message. The Literacy Council takes each recording and puts them on CDs to mail to the children along with the book. The items were slated to arrive in time for Christmas.

# The Year in Review

A garden was planted at the Northeast Community Correction Center in Osceola, and residents kept it weeded and watered as necessary.

The East Central Arkansas Community Corrections Center in and the Northwest Arkansas Community Corrections Center in Fayetteville also had gardens that yielded produce. Residents help with the planting, watering, maintaining and harvesting goods being produced. The photos below show residents from the Northwest Center working in their raised garden beds.

# 2019 Employee Awards

Sandra Evans  
ACC Employee of the Year 2019

Tammy Zagala  
ACC Director's Award 2019

# Organization

# Organization

# Board of Corrections

The Board of Corrections is the governing board of the Department of Corrections. The purpose of the Board of Corrections is to manage correctional resources in the state such that offenders are held accountable for their actions, victims' needs are addressed in a positive manner, and the safety of society is enhanced. The specific powers and duties of the Board were established by Amendment 33 to the Arkansas Constitution and are codified in A.C.A. § 12-27-105 and § 25-43-401. The seven members of the Board of Corrections are appointed by the Governor to serve a term of seven years.

Benny Magness, Chairman  
Appointment until December 31, 2025

Bobby Glover, Vice Chairman  
Appointment until December 31, 2027

Tyrone Broomfield, Secretary  
Appointment until December 31, 2024

John Felts  
Appointment until January 14, 2026

Dr. William "Dubs" Byers  
Appointment until December 31, 2021

Whitney Gass  
Appointment until December 31, 2023

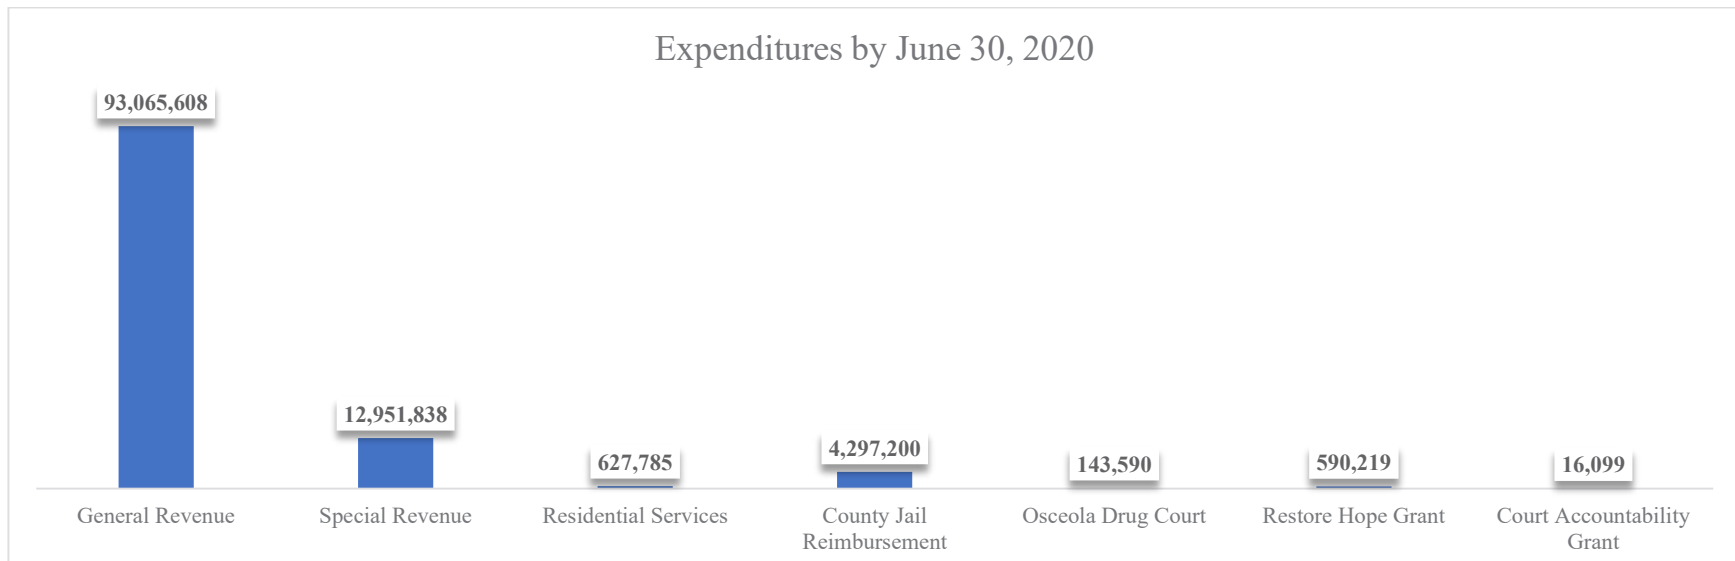

Lee Watson  
Appointment until December 31, 2026

*Buddy Chadick served until his term expired in February 2020*

# Parole and Probation

## Elizabeth Taylor Deputy Director

### **Mission Statement:**

To provide community supervision that promotes public safety, provides restitution to victims and rehabilitates the offenders into productive members of the community.

### **Goals & Functions:**

To improve the quality of supervision, staff and public safety. To develop alternative sanctions to traditional prison for sentencing and releasing authorities, through a continuum of sanctions, programs and preventive services needed to effectively address behavior problems, risks and needs of offenders.

## Parole

Parole is early release from state prison to community supervision. The parolee must follow strict conditions of release, which are set by the Parole Board, and include reporting to a parole officer. A Parole Board revocation hearing judge determines if a parolee violates conditions of supervision and if re-incarceration in prison or a community correction center is appropriate.

## Probation

Probation is a court-ordered alternative to prison where the offender remains in the community and is subject to conditions of behavior. The offender must report regularly to a probation officer. Violation of probation terms and conditions may result in revocation of probation, by the sentencing judge, where the offender may be sent to prison or a community correction center or have other sanctions imposed.

## Programs

### **Specialty Courts**

Specialty courts, run by the Administrative Office of the Courts and staffed with ACC supervision officers, include Drug Courts, Veterans Courts, HOPE, Alternative Sentencing and Swift Courts, and Mental Health Courts. These courts handle probation cases through intense and tailored supervision, monitoring, and treatment. Offenders receive outpatient and/or inpatient treatment and counseling and are subject to sanctions, frequent drug testing and court appearances.

# Parole and Probation

## Special Response Team

SRT are dedicated officers who work with local, state and federal law enforcement officers to find absconders who are parolees (and at times probationers) who are no longer reporting to their supervising officer as required by law.

## Sex Offender Aftercare Program

This program uses a team approach to manage high risk sex offenders in the community. The team includes specialized supervision officers, aftercare coordinators, polygraph examiners, and voice stress analysts. The program's goal is to increase public safety and provide offender accountability.

## Institutional Release Services

IRS is responsible for identifying when an inmate is eligible for parole consideration, scheduling the inmate for a parole hearing when eligible, working with inmates to develop an acceptable plan for housing post-incarceration and releasing those inmates approved by the Arkansas Parole Board.

## Treatment Services

Treatment Services consists of Substance Abuse Program Leaders and Advisors who provide counseling services for substance abuse disorders for parolees and probationers who are under ACC supervision and make referrals to outside providers for inpatient and mental health treatment.

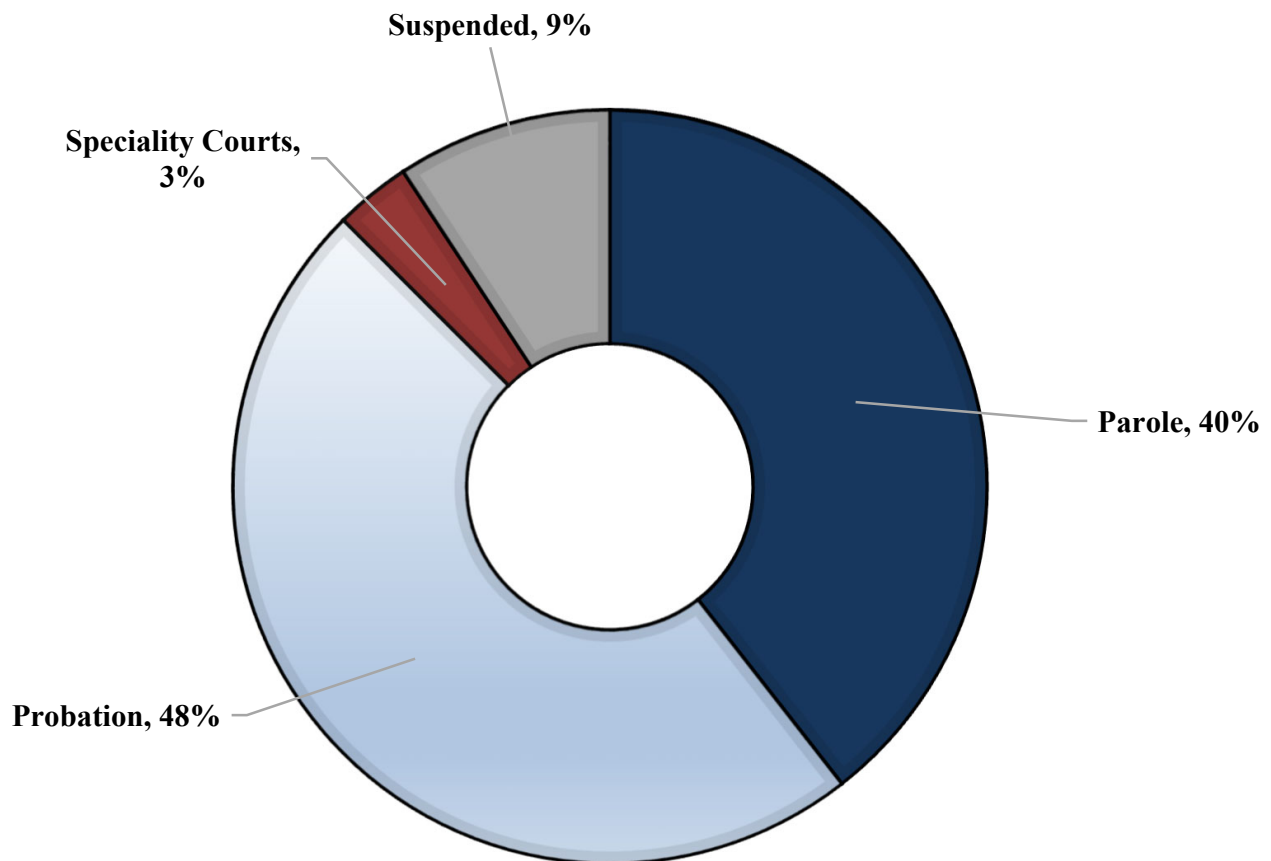

## Intensive Parole Supervision

The IPS is a group of officers in Pulaski County (Area 8) that works closely with law enforcement to intensely supervise high-risk offenders.

## Special Response Team

The Division of Community Correction Special Response Team (SRT) is comprised of 20 officers across the state. They may work alone or with local, state, or federal law enforcement agencies aggressively searching for those fugitives/absconders who pose a danger to public safety. Once located and arrested, parolees/fugitives are transported to a jail facility in the state.

The SRT has 19 officers for conducting undercover field operations and one officer who is assigned to the Arkansas State Fusion Center under the Arkansas State Police as an Intelligence Analyst. In addition to being full certified police officers with the state of Arkansas, these officers have been trained and certified as Federal Officers under Title 18 USC with the Federal Bureau of Investigation (FBI), United States Marshal Service (USMS) and the Drug Enforcement Administration (DEA).

The SRT works with these federal agencies to conduct investigations and secure federal indictments on active parolees, probationers, absconders, and others as the situation dictates. Additionally, any seizures that end up in the Federal Asset Forfeiture Account is shared with ACC — amounting to more than \$176,000 since the team was created.

The SRT has formal memorandums with eight local police departments across the state in addition to the federal agencies that provide personnel on a daily basis in ACC's efforts to locate and make arrests.

# Parole and Probation

## Sex Offender Services

The Sex Offender Aftercare Program has specialized Parole/Probation officers who supervise high profile, Level 3 and 4 sex offenders in the community. The program goal is to increase public safety and provide offender accountability through the containment of sexual offenders using a multidisciplinary approach.

The program has Parole/Probation officers who have specialized training in such areas as mental health, voice stress analysis, and polygraphic analysis.

Polygraph/Computer Voice Stress Analysis exams conducted	471
Sex Offender Services Group Sessions conducted	5,088
Sex Offender Services Individual Sessions	512
Sex Offender Services Phone and/or Office Visits	1,643

Revised SOS policy was released in September 2019. Statewide SOS manual training for sex offender supervision officers ensued following its release. Sex offender policy development is an ongoing process. SOS further developed and updated various forms related to sex offender management which enhanced containment of sex offenders yielding safety of our citizens.

Sex offender supervision officers serve on Child Abduction Response Teams (CART) statewide pursuant to Act 913. Efforts continue to ensure that ACC has an active and well-trained presence on CART.

ADC IT pushed an app developed by Children's Mercy Hospital, the Child Protector App, to iPhone users. As a mandated reporter, we are required to report suspected abuse which largely depends on our ability to recognize abuse. This app will assist Children's Protective Services, law enforcement and medical personnel when evaluating children who may have been physically abused. This app features:

- Realistic animations of how childhood injuries may happen, both accidental and inflicted. Injury types include bruises, burns, head injuries, fractures, and abdominal injuries
- Decision trees for use in determining likelihood of abuse, further investigative needs, and further medical testing for each of the injury types
- A library to of over 100 animations with accompanying narration that depict the mechanisms of different types of injuries for children
- Descriptions of medical findings, the meaning of those findings, and how they can be used in investigative, legal or court processes
- History taking tools for both investigators and medical professionals

To accompany this, training was distributed to sex offender officers statewide to include online Arkansas Mandated Reporter Training and the article, "Responding to Child Abuse During a Pandemic" published by the Zero Abuse Project. This training event was followed-up with a free webinar entitled Child Protector App: An Investigative and Educational Tool in order to learn more about the application and to improve the investigative, administrative, and handling of child physical abuse cases, as well as child fatalities, in a manner that reduces trauma to the child and family.

### Halloween Supervision 2019

Halloween has been an event of utmost importance to those involved in sex offender management as festivities are catered to minors: This year, sex offender involvement in Halloween events continued to be strictly prohibited. There were two primary supervision tactics used for monitoring sex offenders over Halloween:

- 1) Sex offender lock-ins wherein sex offenders report to an ACC Office to be supervised during peak trick-or-treat times and/or
- 2) House arrest issued with random home visits to check for compliance.

Halloween restrictions were directed toward sex offenders assigned a Level 3 or 4, sex offenders ordered to participate in the Sex Offender Aftercare Program, and other sex offenders on supervision for an active sexual offense with a minor victim. ACC Officers only excluded those sex offenders who were required to work on Halloween with verification provided by their employer. Identified sex offenders on probation/parole were subject to lock-ins and/or home visits and a mandatory curfew from 5 p.m. October 31st, 2019, through 6:00 a.m. November 1st, 2019. Sex offenders subject to house arrest were prohibited from distributing candy and were directed to have all lights out with no Halloween decor outside their residence.

During the evening of Halloween 2019, Agents and Officers with Community Corrections contacted 1,184 registered sex offenders under supervision either in our lock-ins or during home visits. DCC-SOS was aided by almost 50 law enforcement partners in the State.

During the night more than 60 probation and parole agents, officers, and managers kept watch over this high-risk population.

# Parole and Probation

## Sex Offender Services

Sex Offender Services partnered with the Little Rock Zoo to ensure Act 463 was enforced during activities at the Zoo. Photographs, names, and relevant data were compiled regarding Level 3 and Level 4 sex offenders within the greater Little Rock Area as well as deploying ACC Officers/Agents to work during activities while children are present at the zoo to ensure each child remained safe. This operation proved to be a huge success as evident from a grateful community and officials at the Little Rock Zoo.

# Parole and Probation

## Intensive Parole Supervision

The Division of Community Correction Intensive Supervision Team is comprised of four officers in Area 8. They may work alone or with local, state, or federal law enforcement agencies. The team supervises 120 high-risk offenders that have a history of violence or gang affiliation. All members of the team are Specialized Law Enforcement Officers and are taser certified. Members are also certified LEOFA (Law Enforcement Officers Flying Armed) and frequently fly out of state to extradite parolees back to Arkansas. The main priority for the IPS team is to maintain community safety by intensely supervising offenders and working closely with outside agencies.

# Residential Services

## James Banks Deputy Director

### **Mission Statement:**

To return residents to the community and the workplace as productive, accountable and employable individuals, by providing tools to help offenders develop alternative lifestyles to crime, through training in life skills, chemical-free living, vocational and other job skills training.

### **Goals:**

To provide effective and intensive residential community-based sanction in a therapeutic environment as an alternative to traditional prison. To improve the quality of security, employee safety, treatment of offenders and community protection.

### **Functions:**

The Residential Services Staff manage and operate regional community-based residential correctional programs designed to address issues surrounding the behavior which resulted in confinement or incarceration. These multi-purpose, minimum security facilities encompass community service, discipline, behavior modification and various other self-improvement services.

## What is a Center?

The ACC operates six community-based, minimum security correctional facilities, with one solely for technical parole violators (multiple security levels) as alternatives to traditional prison. All residential facilities are American Correctional Association (ACA) accredited. ACA accreditation is intended to improve facility operations through adherence to clear standards relevant to all areas/operations of the facility, including safety, security, order, inmate care, programs, justice, and administration.

While in a Center, offenders are referred to as residents as a distinction between jail or prison inmates.

The structure of these residential centers encompasses evidence-based programs, accountability, and behavior modification.

Residents are sentenced or placed there by the courts or the Parole Board and the normal length of stay is 9 months to 2 years.

Each Center operates within a Modified Therapeutic Community (MTC) modality which has three basic phases that are progress-driven.

MTC features programs and services that are designed to allow an offender to reintegrate into the community

# Residential Services

with a goal of maintaining a crime free lifestyle. The community consists of residents and staff. The community establishes values, norms, traditions and rules by which the residents live. As residents advance through treatment phases, they are assigned appropriate therapeutic jobs and progress through positions that will help them develop skills useful in resolving personal problems and making life-style changes. Throughout the process, emphasis is placed on discovering and resolving personal problems and being responsible and accountable for ones' behaviors.

Residents receive intense programming aimed at reducing future criminal activity. The highly-structured programs include such services as drug/alcohol treatment, mental health treatment, educational and vocational programs, employment/life skills, community service, counseling, socialization, anger management, and community work transition.

To achieve behavioral changes, offenders are taught new concepts, values, and socialization skills.

The Centers also are licensed as substance abuse treatment facilities by the Arkansas Department of Human Services Division of Behavioral Health Services' Office of Alcohol and Drug Abuse Prevention (ADAP). Treatment staff is fully credentialed as Certified Clinical Supervisors, Licensed Alcohol and Drug Abuse Counselors, Advanced Alcohol Drug Abuse Counselors, Certified Alcohol Drug Abuse Counselors, Certified Anger Management Specialists, Certified Co-Occurring Disorder Professionals, Certified Prevention Specialists, Certified Compulsive Gambling Counselors, and Certified Tobacco Treatment Specialists.

The ACC Residential Services Treatment Programs use A New Freedom program, which is a comprehensive, evidence-based behavioral health and substance abuse curriculum.

**Long Term Program:** The goal of this program is to create a positive peer culture and facilitate overall lifestyle changes. These lifestyle changes are demonstrated by residents remaining drug-free and having the ability to interact in society without further criminal activity, while taking responsibility for ongoing recovery and contributing to their communities. These changes are achieved through the structured environment of the therapeutic community which has explicit rules: using positive peer pressure, confrontation, sanctions, cognitive intervention (a process of identifying and correcting errors in thinking to change behavior) and the 12-step approach.

As soon as the resident enters the program, an extensive assessment is completed and the resident is placed in the Phase System.

Drug Court judges can place a Drug Court offender in an ACC Community Correction Center for a 30 to 90-day intensive residential treatment program provided by skilled, experienced and certified treatment specialists.

Treatment in the Short Term Program includes individual and group therapy: 12-Step, Alcoholics Anonymous and Narcotics Anonymous, process/static group, pre-release, life skills group, cognitive intervention, parenting, peer support, mental health referrals, relapse prevention and anger management.

Residents participate in 20 hours of treatment per week. Staff work closely with each resident to make sure the resident has a viable plan to address individual needs, which strengthens the recovery process.

The Special Needs Program (SNP) is for residents who have co-occurring disorders. These offenders have histories of substance abuse and mental health and/or medical issues. The programs operate within modified therapeutic communities at the Southwest Arkansas Community Correction Center in Texarkana (male - 60 beds) and

# Residential Services

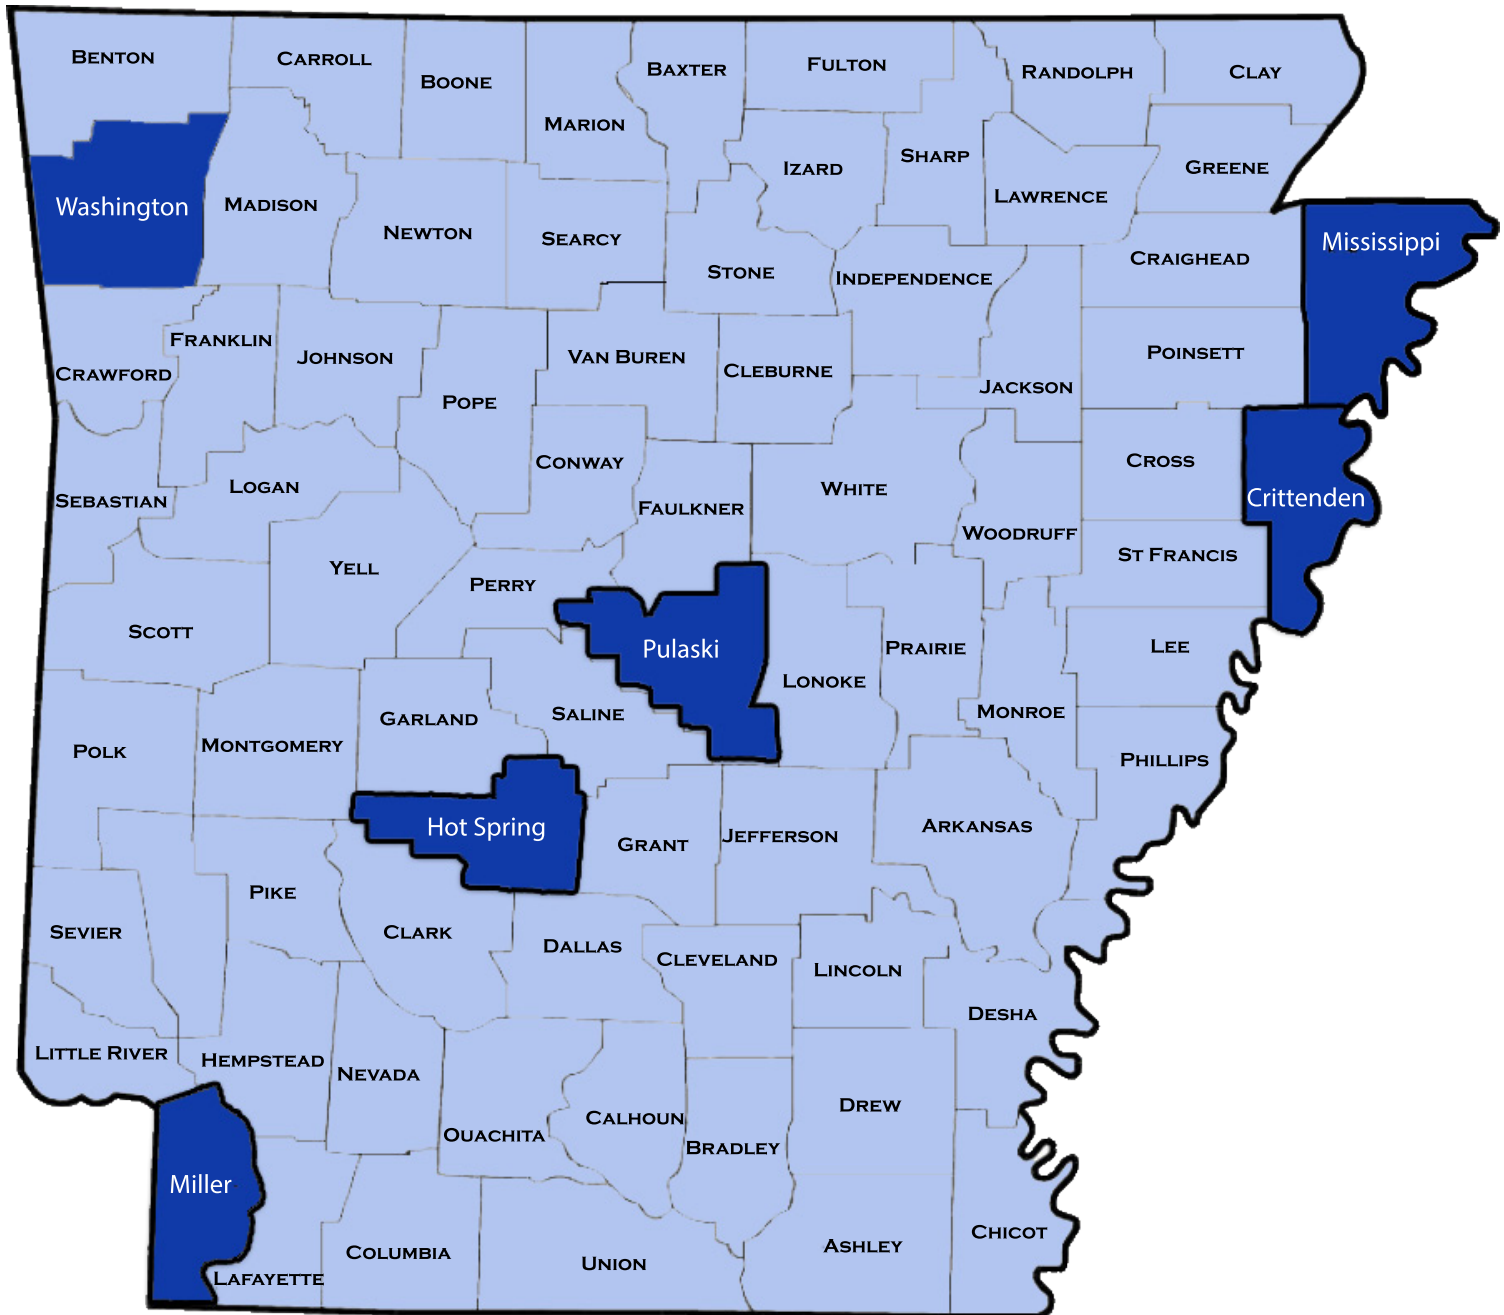

the East Central Arkansas Community Correction Center in West Memphis (female - 50 beds). The program is designed for long-term treatment, with an average completion of six to 12 months.

Staff is required to complete 160 hours of basic training and security 40 hours refresher annually.

## Omega Supervision Sanction Program

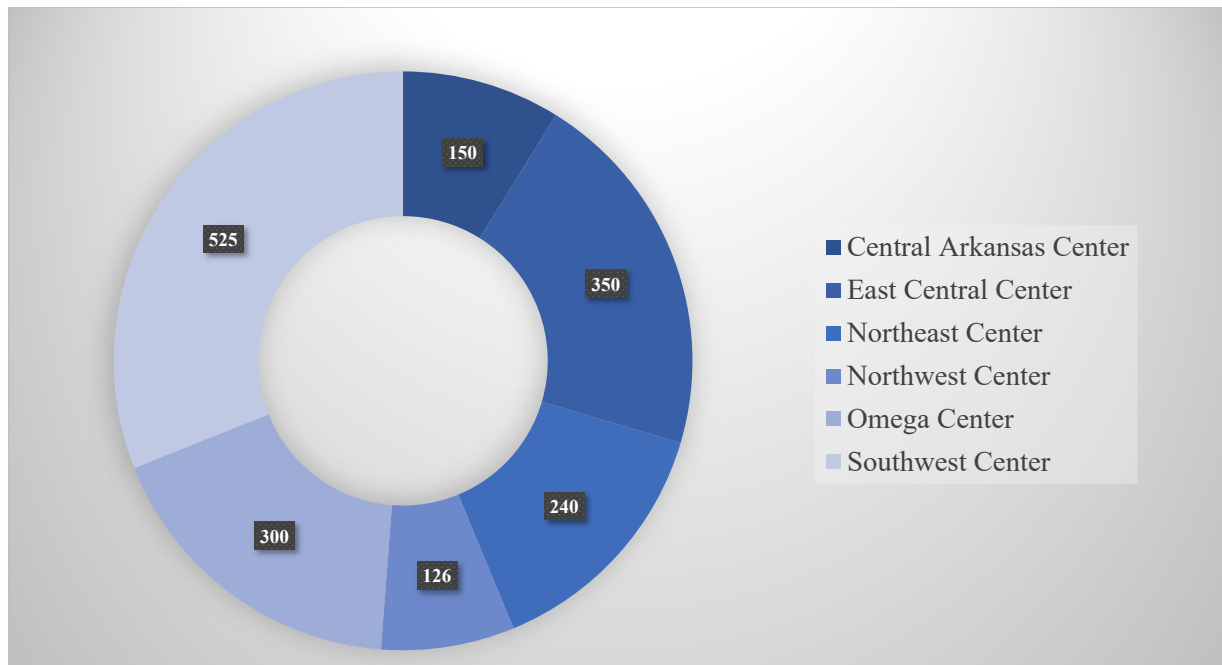

The Omega Supervision Sanction Center provides an alternative 90 to 180 day minimum treatment program for male offenders who commit technical parole violations, decreasing the number of parolees who are sent to ADC and held in county jails for technical violations.

How is that different from prison or a jail?

Omega residents are held only 90 to 180 days as a sanction for violating parole – not as a sentence from a criminal court. Each resident is assigned a counselor who works with him to identify his particular problems that hinder him from successfully completing parole. Residents attend classes on various programs, such as Anger Management, Relationships, Substance Abuse, Relapse Prevention, Job Readiness and Reentry to name a few.

# Reentry

Reentry is process that begins when offenders are incarcerated and ends when they are successfully reintegrated into the community as a law-abiding citizen.

ACC's Reentry program provides resources and services to help offenders succeed after prison. Through the use of Reentry Centers, Transitional Housing, mentors, the Good Grid web portal, community partnerships and evidence programing, offenders have a better chance of not returning to prison.

## Feature Highlights

These fully-integrated modules can be added on for Collaboratives & Community Partners.

### CollabTools

Engage more effectively with fully integrated Meeting Rooms, Task and Document Management, & Custom Form Builder.

### HousingMatch

Consolidate ranking, eligibility, and bed-availability processes that streamline the workflow from housing application to bed reserved.

### WorkStation

Post & apply for full-time, part-time, volunteer, and gig opportunities. Includes online interviews & timesheet log capabilities.

### GovPortal

Screen & manage the application process for government assistance, such as SNAP, TANF, and Medicaid. Includes Tax Filing as well.

### LearningNook

Build custom courses complete with assignments, quizzes, certificates, etc, or browse & assign from the Good Grid course library.

### Community

Utilize our fully integrated social network to perform easy outreach on events, resources, & services. Includes a searchable directory.

### WellnessCorner

Coordinate treatment planning based on the latest DSM-5 standards. Complete with medical billing codes & a homework planner.

### AnalyticSuite

Add from a custom set of analytics widgets from client demographics and caseworker productivity to community-wide assessment and evaluations. Also includes ad-hoc reporting.

## Reentry Population as of June 30, 2020
