The Work of Parole/Probation Officers and Agents

Area 2 Agent Steve Simers, assisted by Fulton County Sheriff's Department and Salem Police Department,

conducted a home visit that resulted in the discovery of two firearms, a white crystalline substance believed to be methamphetamine, and two used syringes. Both offenders at the home were taken into custody by Fulton County Sheriff's Department and evidence was collected and turned over to the 16th Judicial District Drug Task Force.

Area 6 Officer Scott Mercer, with the assistance of Danville Police and the 15th Judicial District Task Force, conducted a home visit on an offender suspected of selling drugs out of his apartment. More than 3 pounds of marijuana and several containers of pre-rolled marijuana joints were seized. The approximate street value of drugs was \$54,000.

Area 2 Agents Charley Slater and Nick Mayfield assisted the Gassville Police Department in conducting a home visit at a residence after Gassville Police Captain Everett Utchman received information that illegal drug activity had been occurring at the residence. The search resulted in the discovery of several items of drug paraphernalia, including soda

cans with used cotton and white residue, and a white crystalline substance believed to be methamphetamine with a syringe believed to be loaded with methamphetamine (shown below). All evidence was collected by Captain Utchman who placed the offender in custody.

Area 2 Officer Hunter Boles, assisted by the Izard County Sheriff's Department and the 16th Judicial District Drug Task Force, conducted a home visit that resulted in the discovery of controlled substances, drug paraphernalia, and firearms. The offender was taken

into custody on a warrant for Forgery and additional charges stemming from the home visit. Two other individuals, who are not currently on supervision, also were taken into custody and charged with felonies.

The **Area 8** (Pulaski County) Intensive Parole Supervision team received a call from the Little Rock Police Department's narcotics section requesting assistance in taking an offender into custody. Little Rock Police had information that the offender was in a local hotel. IPS Agents found the offender asleep in a room and he was taken into custody without incident. A search of the room was conducted and approximately 3 grams of Fentanyl and 3 grams of methamphetamine were located. All evidence and the scene were turned over to Little Rock narcotics detectives. The offender was taken into custody for questioning.

Sex Offender Services staff is collaborating with Arkansas State Police to determine if ACC Sex Offender Compliance Operations could be certified by the National Criminal Justice Training Center as an official "tabletop exercise" for the Child Abduction Response Team statewide. If approved, this would guarantee mandatory statewide multi-agency support for these very critical operations.

Incarcerated here refers to temporary jail stays. ² Offenders on Annual or Indirect Supervision are excluded from caseload/workload counts and ratios. ³ Specialty Court Offender figures shown here are only those assigned to regular P&P officers. These offenders are not counted in caseload or workload ratios. ⁴ Indirect totals here are for offenders in Non-Active supervision statuses or those under Annual Supervision.													

This page and the following two pages contain statewide caseload information for ACC. Caseloads are presented separately for regular parole and probation, specialty court, and specialized caseloads. This version is specifically designed for quarterly legislative reporting and differs from the daily caseloads/workloads report.

Beyond the exclusion of workloads calculation, it is important to note that direct supervision in these tables includes regular parole and probation and specialty court (including regular parole and probation offenders carried by specialty court officers) offenders with active (direct), electronic monitoring, or incarceration supervision status, as well as absconders assigned to SRT officers. Offenders on annual supervision are counted as indirect.

Caseloads are presented in distinct officer groupings:

Regular: These are officers carrying normal Probation and Parole caseloads.

Specialty Court: These officers supervise offenders in specialty courts. Note that these officers may also carry regular P&P offenders, and these offenders are reflected in the specialty court caseload/workload figures; however, separate caseload/workload ratios are calculated for the regular and specialty court portions of a specialty court officer's caseload, in addition to a combined, or mixed, ratio.

Specialized: These officers supervise strategically specialized caseloads consisting of offenders requiring heightened supervision protocols (intensive supervision) and parolees who have absconded supervision (Special Response Team).

Indirect: These are offenders for whom their sentence, circumstance, or current status is associated with a reduced supervision obligation for the officers they are assigned to. Generally, these include offenders in non-reporting status, those on suspended sentences (SIS), and interstate compact offenders. Offenders on annual supervision are also included in this group.
