## SEX OFFENDER SERVICES' 2022 HALLOWEEN ENFORCEMENT EFFORTS

Halloween 2022 demonstrated that each area has continued an aggressive approach regarding public safety with a double-down emphasis to ensure the safety of the most vulnerable during Halloween. A total of 1,643 sex offenders were placed under Halloween restrictions.

The approved operational plan to ensure each of the 1,643 sex offenders complied with Halloween restrictions consisted of lock-ins, home detention and approved work permits.

Each office opened its doors from 5:30 p.m. to 9 p.m. to ensure accountability of those ordered to report. Offenders deemed highest risk were subject to report to lock-ins.

Sexual offenders subject to home detention included sexual offenders with notable identified risks: minor victim(s); stranger victim(s); impulse control deficits; abuse of a position of trust or authority, or use of substances in the commission of their sexual offense.

**HALLOWEEN 2022, continued:**

Allowances were made for those with verified work requirements and/or medical ailments which prohibited in-person reporting. Female offenders were ordered to home detention as to not mix with the opposite sex.

There were 53 technical violations regarding Halloween lock-ins or issues found on home visits. The most common violation was failing to report to lock-in as directed. For those sex offenders that could not be cleared quickly, Area Managers deployed Agents/Officer to locate sexual offenders in the field. This reflects a 97% compliance rate overall.

Those who attended had an opportunity to meet with representatives from American Stitchco, American Epoxy, Penmac Employment Agency, and the career advisor from Workforce Innovation. The Arkansas Department of Workforce Services

Mobile Unit set up in the parking lot and all who attended had an opportunity to meet with their representative to set up a job search account and create a résumé.

During the month of October, Career Planning Placement Specialist Bertha Kitchens visited with several local employers to discuss job openings, hiring processes, and the upcoming job fair to be held at the Parole and Probation Office. Employers visited included Vexus Boats, Bass Cat, ASG, Arkansas Plastics, Triton Boats, and Great Escapes RV Center.

Among the litter, 10 used syringes were discovered and safely disposed of by Career Planning Placement Specialist Becky Hutchison.

On October 19, **Area 8** Intensive Supervision Program Agents conducted a visit at the home of an offender. In addition to a loaded Glock handgun and an AK-47 pistol, Agents located a backpack that contained marijuana, fentanyl pills and white powder. The scene was turned over to Narcotics Officers from the Little Rock Police Department who obtained a search warrant and seized a total of 1.5 pounds of marijuana, 22 grams of cocaine, 26 grams of fentanyl powder and approximately 100 fentanyl pills, along with the weapons. The offender was charged with Trafficking Fentanyl, Possession of Controlled Substance Cocaine with Purpose, Possession of Firearm by Certain Person, Simultaneous Possession of Drugs and Firearm, Maintaining a Drug Premises, Proximity to Certain Facilities, Possession of Drug Paraphernalia, and Possession of Marijuana with Purpose.

This page and the next contain statewide caseload information for ACC. Caseloads are presented separately for regular parole and probation, specialty court, and specialized caseloads. This version is specifically designed for quarterly legislative reporting and differs from the daily caseloads/workloads report.

Beyond the exclusion of workloads calculation, it is important to note that direct supervision in these tables includes regular parole and probation and specialty court (including regular parole and probation offenders carried by specialty court officers) offenders with active (direct), electronic monitoring, or incarceration supervision status, as well as absconders assigned to SRT officers. Offenders on annual supervision are counted as indirect.

**Caseloads are presented in distinct officer groupings:**

**Regular:** These are officers carrying normal Probation and Parole caseloads.

**Specialty Court:** These officers supervise offenders in specialty courts. Note that these officers may also carry regular P/P offenders, and these offenders are reflected in the specialty court caseload/workload figures; however, separate caseload/workload ratios are calculated for the regular and specialty court portions of a specialty court officer's caseload, in addition to a combined, or mixed, ratio.

**Specialized:** These officers supervise strategically specialized caseloads consisting of offenders requiring heightened supervision protocols (intensive supervision) and parolees who have absconded supervision (Special Response Team).

**Indirect:** These are offenders for whom their sentence, circumstance, or current status is associated with a reduced supervision obligation for the officers they are assigned to. Generally, these include offenders in non-reporting status, those on suspended sentences (SIS), and interstate compact offenders. Offenders on annual supervision are also included in this group.
