

Policies and Procedures Manual

for the

Arkansas Correctional School

Bill Glover
Superintendent of Schools

Published: March 1995
Revised: April 2023

This manual contains the policies of the Board of Education, the major administrative regulations intended to implement policy, and certain references or "exhibit" documents that relate to policies and/or regulations.

Policy development in a modern, forward-looking school system is a dynamic, on going process. New problems, issues, and needs give rise to the continuing need to develop new policies or to revise existing ones. This is why the Board employs the loose-leaf format for this manual. It is easy to keep up-to-date.

Each person holding a copy of this manual should make a diligent effort to keep it up-to-date as new policies, regulations, and exhibits are distributed by the central office.

HOW TO USE THIS MANUAL

The Arkansas Correctional School operates according to policies established by the Board of Education. The Board, which represents both the state and local community, develops the policies after careful deliberation, and the school administration implements them through specific rules and regulations. The Board then appraises the effects of its policies and makes revisions as necessary.

In the interest of harmony, efficiency, uniformity of interpretation, coordination of effort, and in fairness to all concerned, the Board makes this manual available to all who are affected by its policies.

HOW THE MANUAL IS ORGANIZED

The manual is organized according to the classification system developed by the Educational Policies Service of the National School Boards Association. The system provides an efficient means for coding, filing, and finding board policies, administrative rules, and other documents.

PLEASE NOTE: All copies of this manual are the property of the Arkansas Correctional School.

USING THE SIGNS AND SYMBOLS

Various signs and symbols are used in connection with the classification system. They are for your use in locating and/or examining policies. Included are the following:

ALSO: Certain policies bear two codes in the upper right-hand corner. The second is in parentheses and is preceded by "ALSO". This means that the identical policy (or regulation) is filed under both codes.

CF: Confer. Certain policies relate to other policies. When a policy bears two or more codes in the upper right-hand corner with the second code (and perhaps others)

appearing in parentheses and preceded by the symbol of CF., check statements under such codes for related statements.

DATES: When possible the original date of adoption/issuance appears immediately following each policy/regulation.

Additional cross references are offered in notes throughout the manual to help the reader find all of the related information he/she seeks.

ABOUT SCHOOL BOARD POLICIES

Generally, the role of a Board of Education is to set policy and the role of the administration is to execute it. Here is the basic distinction as set forth by the National School Board Association and by the Arkansas School Boards Association.

Policies are principles adopted by the Board to chart a course of action. They tell what is wanted and may also include why and how much. They are broad enough to indicate a line of action to be taken by the administration in meeting a number of day after day problems; they need to be narrow enough to give administration clear guidance.

Rules are the detailed directions developed by the administration to put the policy into practice. They tell how, by whom, where, and when things are to be done.

These definitions are serviceable most of the time. They reflect sound theory of governance and administration. But the real world of school boards does not always conform. For example:

- * - Often the state and federal governments confuse the distinction and require Boards of Education to make detailed rules; and many regulations are established by law or by State Department of Education.
 - * - A School Board also signs many contracts which incorporate rules and regulations.
 - * - Additionally, the public may demand that the Board, itself, not the administrator, establish the specific rules and procedures in certain sensitive areas. Thus, the separation of policies and administrative regulations in this policy manual follows several rules of thumb in addition to "basic theory".
1. All edicts of the state (even though regulations are considered mandated Board policy).
 2. All agreements signed through contract (even though regulations are considered mandated Board policy).
 3. Where the Board has written regulations in particularly sensitive areas, and has incorporated them into policy, the entire statement is presented as policy.
 4. Where the Board has adopted rules and regulations concerning its own procedures (as how it conducts meetings), these statements concerning operations of the Board appear as policy.

As long as the administration operates within the guidelines of a general policy adopted by the Board of Education, it may change administrative regulations without prior approval of the Board--unless the Board has specifically asked that a particular regulation be given prior Board approval. However, only the Board can adopt new policies or revise old ones.

Every effort was made in this 2012 revision of the Personnel Policy Manual to make information current and up-to-date. Acknowledgment is made that no manual can be all inclusive and completely current. Each teacher and School District employee should refer not only to this manual, but current Department of Correction regulations as outlined in the most current DOC manual, as well as current AR's which are included in this manual.

It is the hope of the Board of Education that this collection of policies and regulations will make a greater harmony and efficiency possible in all areas of school operations. This will enable the Board to devote more time to its primary duty-the development of long range policies and planning for the future of the school system.

Dr. Bill Glover
Superintendent of Schools

Policy Name:	DEPARTMENT OF CORRECTION SCHOOL DISTRICT	Policy Code:	N/A
		Date Adopted:	

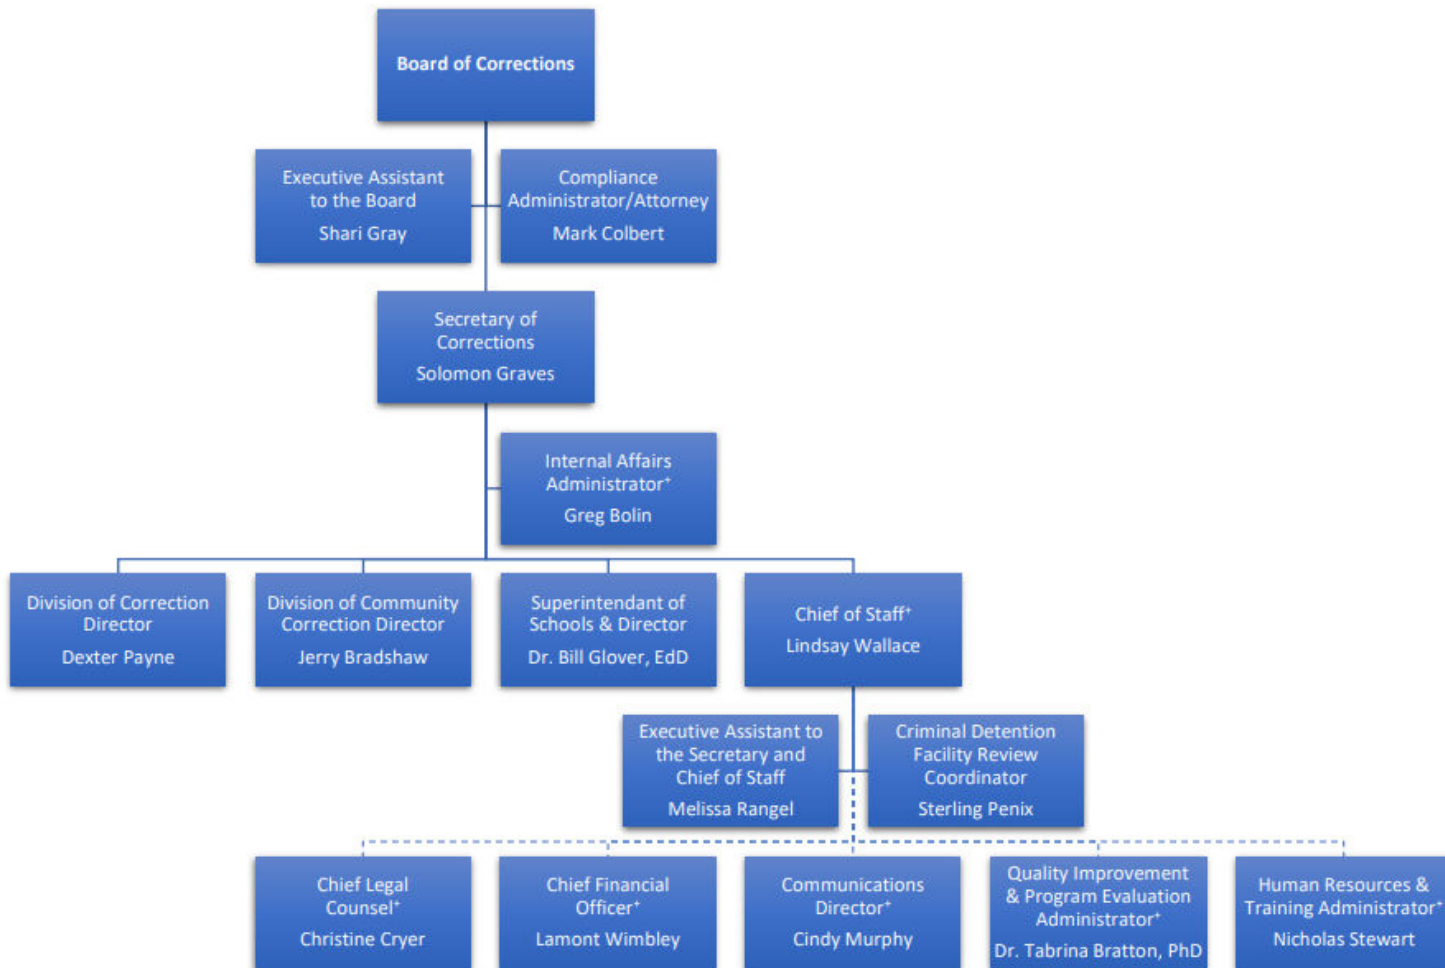

Act 279, Sixty-Ninth General Assembly, Regular Session, 1973, established a school district within the Arkansas Department of Correction. The curriculum is non-graded and provides for continual progress. The system operates on a 190 day contract scholastic year. Each student progresses at his or her own rate through the various levels of language arts, social studies, science, and mathematics. Instruction includes classes in health, remedial reading, special education and current events. Inmates are given time off their regular job assignments to participate in the program.

Classes are conducted at the various units by professional teachers who are licensed by the Arkansas Department of Education. State adopted texts are used in the school program.

The district's name was changed to the Arkansas Correctional School following a reorganization by Act 496 of 2005.

The personnel policies of each School District in effect at the time a teacher's contract is entered into or renewed shall be binding upon both parties unless changed by mutual consent.

Any amendments to personnel policies adopted during the term of such contract shall become effective the following July 1, provided such amendments may take place immediately with mutual consent.

The Board shall provide for a Committee on Personnel Policies, as composed by law, to annually review the personnel policies of the Board to determine if additional policies or amendments to existing policies are needed. The committee may propose new policies or amendments to existing policies.

The Board shall consider and adopt, reject, amend, or refer back to the committee for further study and revisions any proposed policies or amendments that are submitted to the Board for consideration.

The District shall have a personnel policies committee consisting of no fewer than five (5) classroom teachers and no more than three (3) administrators, provided that the classroom teacher members shall be elected by a majority of the classroom teachers employed in the district by secret ballot in an election conducted by the teachers.

The School District's committee on personnel policies shall organize itself in the first quarter of each school year, elect a chairman and secretary, and develop a calendar of meetings throughout the year to review the District's personnel policies to determine if additional policies or amendments to existing policies are needed, and to review any proposed distribution of a salary underpayment from previous years.

Minutes of the committee meetings shall be promptly reported and distributed to members of the Board and posted in the buildings of the District including administrative offices.

Either the committee or the Board of Directors may propose new personnel policies or amendments to existing policies, if the proposals by the Board have been presented to the committee at a regular or special meeting of the committee at least ten (10) working days prior to presentation to the Board. Policy Name:	BUSINESS AND INDUSTRY INVOLVEMENT	Policy Code:	GABA

School administrators will seek to give sufficient notice of staff meetings, hold them to reasonable frequency and length, and make committee assignments equitably. Staff meetings will be held at the unit level at least quarterly. Administration staff education meetings will be held at least semi-annually for the system-wide organization.

Members of the faculty shall participate in the decision-making process by working on various committees, participating in faculty meetings, and by communicating personally with their immediate supervisor and/or any of the administrators of the District.

Policy Name:	PROFESSIONAL DEVELOPMENT OPPORTUNITIES	Policy Code:	GAD
		Date Adopted:	2/17/12

It shall be the policy of the Board of Education that the District shall:

1. Develop and implement a plan for professional staff development and in-service training based on local educational needs and state educational goals. The administration and the faculty will make a concerted effort to discover means of defining school problems and working toward solutions of such problems to provide the most effective in-service education. The plan shall be subject to review by the State Department of Education. The plan shall provide education and training for School Board members, school and district administrators, teachers, and support staff on a continuing and regular basis throughout the school year. Teachers and other affected participants shall be involved in the development of the plan for their own in-service education. District programs for staff development and in-service training shall be evaluated by the participants in the regular staff development program.

2. Have flexibility in establishing plans for staff development and in-service training, provided the plans meet the standards for in-service education as developed by the State Department of Education.

The professional staff is directed to complete, initiate, and maintain documentation of this policy's implementation.

3. State guidelines regarding professional development will be followed and will include a minimum of sixty hours training per year for all educational staff.

The School District shall permit a teacher the opportunity to attend instructional staff development sessions of the annual Arkansas Education Association (AEA) convention. Teachers may count up to two (2) days of six (6) hours each of attendances at instructional professional development sessions of the annual AEA convention toward fulfillment of the 60 hours of staff development required by the Standards for Accreditation of Arkansas Public Schools, provided that the sessions have been certified by the State Department of Education.

Other activities which will contribute toward in-service education will be regular faculty meetings, class visitation, workshops, consultation service, conferences, and attendance at professional meetings. Whenever possible, in-service workshops will be held on contract days.

The School District shall permit the teachers and administrators who have received training in the program to assist in training other teachers and administrators.

Policy Name:	GRIEVANCE PROCEDURES Page 1 of 2	Policy Code:	GAE (Also GCIB)
		Date Adopted:	2/17/12

PROCEDURES:

Level I: An employee who believes that there has been a violation of District policy which directly affects him/her may discuss the concern informally with his/her immediate supervisor in an attempt to resolve the problem at the lowest administrative level within ten working days of the employee's becoming aware of the problem.

If the issue cannot be resolved informally, the employee may present a written concern to the supervisor within five working days of the presentation of the informal concern. The supervisor shall present a written response to the employee within five working days of the presentation of the written concern to the supervisor, or within five working days of the conference with the employee, whichever is later.

Level II: If the employee is not satisfied with the written response, or if no written response is received within the five working day period, the employee may appeal to the Deputy Superintendent (or other person designated by the Superintendent) within ten working days of the employee's receipt of the Level I written response or of the date on which the response would have been received. Within five working days of the receipt of the written appeal, the Deputy Superintendent (or designee) shall meet with the employee in an attempt to resolve the issue. It is the responsibility of the employee to call the Deputy Superintendent (or designee) to schedule the meeting. If the meeting cannot be held within the five working day period for unavoidable cause, the Deputy Superintendent (or designee) and the employee may schedule the meeting at a later date. The Deputy Superintendent (or designee) shall present a written response to the employee within five working days after the meeting. The written response is deemed to have been "presented" to the employee when the response is placed in the United States mail.

Level III: If the employee is not satisfied with the written response from the Deputy Superintendent, or if no response is received within five working days, the employee may request a meeting with the Superintendent within ten working days of the employee's receipt of the Level II written response or the date on which the response would have been received. Within five working days of the receipt of the written appeal, the Superintendent shall meet with the employee in an attempt to resolve the issue. It is the responsibility of the employee to call the Superintendent to schedule the meeting. If the meeting cannot be held within the five working day period for unavoidable cause, the Superintendent and the employee may schedule the meeting at a later date. The Superintendent shall present a written response to the employee within five working days after the meeting. The written response is deemed to have been presented to the employee when the response is placed in the United States mail.

Policy Name:	GRIEVANCE PROCEDURES Page 2 of 2	Policy Code:	GAE (Also GCIB)
		Date Adopted:	2/17/12

Level IV: If the employee is not satisfied with the written response from the Superintendent, or if no response is received within five working days, the employee may request, through the Superintendent of Schools, a hearing before the Chief Administrative Officer. The request for the hearing before the Chief Administrative Officer must be made within ten working days of the date of the employee's receipt of the Level III written response or the date on which the response should have been received. The Chief Administrative Officer shall present a written response to the employee within five working days after the hearing.

Level V: If the employee is not satisfied with the written response from the Chief Administrative Officer, or if no response is received within five working days, the employee may request, through the Chief Administrative Officer, a hearing before the Board of Education. The request for the hearing before the Board must be made within ten working days of the date of the employee's receipt of the Level IV written response or the date on which the response should have been received. The Board will hear the concern at the next regular meeting following the Chief Administrative Officer's receipt of the hearing request, unless both parties have agreed to a different date. The hearing may be open or closed at the request of the employee. The Board will render a decision at the time of the meeting (unless unusual circumstances warrant a delay in the decision until the following regular Board meeting or an intervening special meeting). A decision by the Board is final.

CONSIDERATIONS:

There shall be no retaliation against the employee as a result of the filing of a grievance. The employee may be accompanied by a representative of his/her choosing at the Board meeting. The Board may also be represented by an attorney or other representative.

The grievance procedure may not be used for the purpose of challenging, attempting to remove from a personnel file, or otherwise objecting to, any evaluation of an employee's performance, behavior, etc., whether by way of a formal or informal evaluation or any other assessment, written, or verbal. The only appropriate response to such an evaluation to which the employee objects is for the employee to place a written response in his/her personnel file.

Policy Name:	STAFF PROTECTION	Policy Code:	GAEA
		Date Adopted:	4/3/12

A. WORKER'S COMPENSATION

Licensed personnel are covered for work related injuries or illnesses by the Arkansas Worker's Compensation Law. Employees who sustain any injury at work must immediately notify their immediate supervisor, or in the absence of their immediate supervisor, notify the district central office. An injured employee must fill out a Form N and report the claim to the district's designated worker's compensation health care provider (Company Nurse or subsequent provider). While many injuries will require no medical treatment or time lost at work, should the need for treatment arise later, it is important that there be a record that the injury occurred. All employees have a duty to provide information and make statements as requested for the purposes of the claim assessment and investigation.

For injuries requiring medical attention, the district will exercise its right to designate the initial treating physician and an injured employee will be directed to seek medical attention, if necessary, from a specific physician or clinic.

Employees who are absent from work due to a temporary occupation injury or illness and who are entitled to worker's compensation benefits, upon proper application, may utilize their accrued sick leave as a supplement to their normal weekly pay at the time of their injury or onset of illness. Such option, when exercised, shall reduce the employee's accrued sick leave on a proportional basis. The combination of Worker's Compensation benefits and sick leave pay shall not exceed the employee's normal pay period salary.

Worker's Compensation absences may be designated as Family Medical Leave Act absences when the criteria are met under FMLA for a serious health condition.

B. LIABILITY INSURANCE

Liability insurance is provided by the State Board of Education to each public school employee. Employees should report immediately any incident which could cause a claim to their immediate supervisor or Principal, who will in turn report to the Superintendent. The Superintendent will make appropriate reports to the State Department of Education.

C. INSULT OR ABUSE OF TEACHERS

Staff members confronted with abuse or insult shall report the incident to the Principal/head teacher of the school; and after consultation with the Superintendent, the Principal should take appropriate and necessary action in regard to the matter.

D. HOSTAGE POLICY:

No inmate will be granted freedom by taking a hostage. In the event that an employee is taken hostage, he/she is automatically suspended of all duty and authority. He/she is suspended with pay.

Policy Name:	FAMILIARITY WITH INMATES	Policy Code:	GAF
		Date Adopted:	2/17/12

FAMILIARITY WITH INMATES

Employees will refrain from being overly familiar or personal with inmates, parolees, or any inmates under release supervision. An employee can be courteous, firm, and fair without being too familiar. One can be concerned, interested and helpful without being emotionally involved. Undue familiarity decreases the effectiveness of an employee and sometimes places the employee in a compromising position.

RELATIONS WITH INMATES AND PAROLEES

In order to command the respect of those persons entrusted to the Department of Correction, all employees shall conduct themselves in a proper manner. Employees are to be firm but fair and have a genuine interest in the welfare of all inmates, persons under release supervision and parolees, treating them with dignity and respect.

COMMITMENT OF RELATIVE OR CLOSE FRIEND

If any employee becomes aware that any relative or close friend has been committed or transferred to the institution of their employment, the employee shall report it to the Principal/head teacher and the Unit Warden.

Policy Name:	USE OF VOLUNTEER SERVICE COMMUNITY ACTIVITIES	Policy Code:	GAH
		Date Adopted:	2/17/12

The Department of Correction has established a Volunteer Services Program to assist in treatment programs of inmates in the institutions, as well as to assist in programs for those individuals on parole or under community supervision. Individuals interested in volunteer work for the Department of Correction should apply for assignment in the Unit Warden's/Center Supervisor's Office. Each applicant will be interviewed and screened according to a thorough background check. The coordinator of Volunteer Services for the Department of Correction will be responsible for assisting the unit wardens and administrators in the development of volunteer programs.

Policy Name:	STAFF, STUDENT, AND ADMINISTRATION RELATIONSHIPS	Policy Code:	GAHAA
		Date Adopted:	2/17/12

School District Personnel are considered employees of the Arkansas Department of Correction and must abide by their regulations as outlined in the Arkansas Department of Correction Administrative Regulations and Administrative Directives.

IT IS THE DUTY OF EACH TEACHER TO MAINTAIN A HARMONIOUS RELATIONSHIP WITH STUDENTS, STAFF, AND ADMINISTRATION. THIS INCLUDES BOTH SCHOOL DISTRICT AND DEPARTMENT OF CORRECTION ADMINISTRATION AND UNIT PERSONNEL.

No district employee shall knowingly accept any gratuities or gift(s) from inmate(s)/parolee(s), their relatives, or friends for preferential treatment from district employees while under district supervision. This rule can be superseded only by written permission from the Director or Unit Warden.

No district employee shall receive compensation from any firm, person, or corporation conducting business with the district in exchange for advantage in securing commerce with the district.

Any correspondence received by employees from inmates or family members other than in the course of assigned duties shall be immediately reported to the unit warden or center administrator.

Employees shall not trade or traffic with inmates; neither shall they convey any message, written or verbal, from one inmate to another or to any person outside the institution. Trading or trafficking shall be defined as giving, securing, buying, selling, receiving, or trading anything not authorized by the institution.

Policy Name:	STAFF PARTICIPATION IN POLITICAL ACTIVITIES	Policy Code:	GAHB
		Date Adopted:	4/3/12

District employees shall not use their official authority or influence for the purpose of interfering with or affecting the results of an election or nomination for office; directly or indirectly coerce, attempt to coerce, command or advise a state or local officer or employee to pay, lend or contribute anything of value to a party, committee, organization, agency or person for political purposes. Any political activity shall be in accordance with all other applicable laws, rules, and regulations covering such activity.

Policy Name:	GIVING INFORMATION	Policy Code:	GAHC
		Date Adopted:	2/17/12

INFORMATION

Employees are specifically prohibited from giving any information or discussing with the public or friends any matter pertaining to an inmate, person under supervised release, or parolee except as authorized by the Unit Warden or Administrator. Employees shall refrain from openly discussing the manner in which any other employees perform their duties and from making any remarks which tend to reflect upon the character or performance of such employees. They shall refrain from discussing in the presence of inmates, persons under supervised release, or parolees matters relating to the discipline or management of any institution or the administration of the Department. Also, personal matters of employees, including phone numbers and home addresses, should not be discussed in the presence of inmates, persons under supervised release, or parolees of the Department.

In order to assure that the public's right to information is protected, the Department has established procedures for providing information to the media and other interested groups. Representatives of the news media will be treated cordially and respectfully when they are present at the institutions. Photographs of and interviews with inmates in the institution must be arranged through the Director or the Unit Warden/Center supervisor. A release must be signed by the inmate.

CONFIDENTIAL NATURE OF RECORDS

The records or files of an inmate, relative to medical reports, psychiatrist reports, working documents, educational records etc., are highly confidential and may not be released or discussed except as provided in Administrative Regulation. Reasonable requests from relatives, attorneys, law enforcement officers, and news persons for other information may be granted. Files are not to be removed from institutions without the permission of the Warden/Center Supervisor. When in doubt about the confidentiality of a document, consult the Unit Warden/Center Supervisor or the department's Public Information Officer.

Policy Name:	SERVICES	Policy Code:	GAKAA
		Date Adopted:	2/17/12

TRAINING - The ADC Training Section is charged with the responsibility of establishing and maintaining a continuing pre-service and in-service training program that deals with basic training and supervisory training for all personnel. All new employees will be given prescribed orientation training. All employees are required to participate in the in-service training program as directed. When work schedules permit, employees may attend in-service training classes on state time during regular working hours.

Policy Name:	SALARY DEDUCTIONS	Policy Code:	GAL
		Date Adopted:	2/17/12

Except for payroll deductions required by the state or federal government, all deductions made from salary shall be subject to be Board approval and voluntary on the part of the individual employee. Policy Name:	PROFESSIONAL STAFF (PHILOSOPHY CONCERNING STAFFING)	Policy Code:	GB
		Date Adopted:	2/17/12

In order to achieve the learning objectives established by the Board, the classrooms must be staffed by competent, professional teachers. All other elements of learning -- materials, buildings, administrators, organization, and procedures -- though important, are secondary to the caliber of teacher assigned to the classroom. The recruitment, appointment, motivation, and retention of good teachers take priority in the allocation of administrative energy.

All licensed staff positions are created only with the approval of the Board. It is the Board's intent to activate a sufficient number of positions to accomplish the School District's goals and objectives.

Before any new position is established, the Superintendent will present for the Board's approval, a job description for the position which specifies the job holder's qualifications, the job performance responsibilities, and the method by which the performance of these responsibilities will be evaluated.

The Board also instructs the Superintendent to maintain a comprehensive and up-to-date set of job descriptions of all positions in the school system.

We believe that the following characteristics describe the type of teacher wanted in the District schools:

1. Teachers prepared to meet the licensure specifications and prescriptions, preferably beyond, and who recognize that learning is an ever-continuing process.
2. A staff diversified in methodology so that inmates can profit from the challenges of a variety of teaching techniques in keeping with accepted learning principles.
3. Teachers who recognize that inmates differ in their capacities for mastering the various subject matters and that each pupil in this District is entitled to discover and perform to his/her intellectual capacity.
4. Teachers who recognize that motivation for learning is the primary task of a teacher.
5. Teachers who recognize that learning takes place in a variety of ways and stems from numerous sources, of which the school is just one important source.

Policy Name:	DISCIPLINE Page 1 of 2	Policy Code:	GBHAA
		Date Adopted:	2/17/12

A. DISCIPLINE

The problems of discipline are, in most cases, symptomatic of fundamental deficiencies in the teacher. When the right classroom conditions exist, there are few opportunities for inattention and misbehavior. It is commonly recognized that **GOOD DISCIPLINE IS A PRODUCT OF GOOD TEACHING.**

1. The teacher should have but few regulations. These regulations should be so obvious in intent that no student can plead ignorance of them.
2. Teachers are to handle discipline problems according to unit regulations. In cases where help is needed the teacher should consult the Principal.
3. In maintaining discipline, the teacher should manifest a spirit of self-control, kindness, and determination.
4. Teachers are not security personnel, but must constantly "think" security.

Teachers must try to secure good inmate conduct by kind and judicious means, and expertise in teaching methods and techniques. The teacher must demonstrate self-control in the presence of inmates and avoid nagging, sarcasm, and use of harsh, abusive, or violent language. A good example set by the teacher may be of more value than any amount of talking about good conduct. Reasonable classroom behavior is the target, keeping in mind that noise levels should be kept to the level that will not unduly disturb fellow teachers and their classrooms.

B. FORMS OF DISCIPLINE MEASURES

1. Minor Disciplinary:

A minor disciplinary may be written for such things as sleeping in class, unnecessary noise, horseplay, refusing to obey an order, etc.

2. Major Disciplinary:

A major disciplinary may be written for more serious offenses or when an inmate continues to commit an offense for which he/she has already received a minor disciplinary.

In most cases, an inmate should be warned that he/she is in danger of having a disciplinary written on him/her. If a disciplinary is written, care should be taken to make sure all events of the incident are clearly written in the disciplinary. The disciplinary must include the Rule number and all other required information.

C. IN A TENSE SITUATION:

In case of extremely disruptive behavior in the classroom or school area (such as fighting, making violent threats on the teacher or other persons in the class, etc.) the objective is to remove the disruptive inmate(s) from the classroom or school area and get them to the office as quickly and calmly as possible. Do not hesitate to seek the assistance of a nearby colleague, Principal, or other department employee.

NEVER argue with an inmate who is exhibiting extremely disruptive behavior. If there are no supervisory personnel in the school or the situation warrants such action, call security and request assistance.

D. SELF DEFENSE

District employees will not use corporal punishment and should never have physical contact with a student, unless in an effort to assist in an emergency.

The use of force is sometimes necessary in a correctional environment to maintain safety and security; therefore, the following procedures will be followed:

1. Non-deadly force may be used to restrain, maintain, or regain control of an inmate(s) with a minimum of injury to staff, inmate(s) and others.

2. Employees may use force to protect themselves or any person from reasonably foreseeable injury by an inmate or others in the performance of their official duties.

3. Only that amount of force necessary shall be used to restrain, regain, or maintain control of an inmate. The level of force used by staff shall be directly related to the amount of force used by the inmate. Force shall not be used as a means of punishment.

Policy Name:	SEX DISCRIMINATION/ HARASSMENT OF STUDENTS AND STAFF	Policy Code:	GBRAA (Also GCR)
		Date Adopted:	2/17/12

STUDENTS

Sexual harassment and other forms of sex discrimination are forms of employee misconduct that undermine the integrity of the employee-student relationship. All students must be allowed to pursue their education in an environment free from unsolicited and unwelcome sexual overtures.

Sexual harassment does not refer to occasional compliments. It refers to behavior that is not welcome, that is personally offensive, that debilitates student morale, and that therefore interferes with the study habits of its victims and their fellow students. Sexual harassment may include actions such as:

1. Verbal sex-oriented "kidding", insults, or subtle pressure for sexual activity.
2. Physical contact such as patting, pinching, or constant brushing against another's body.
3. Demands for sexual favors, accompanied by implied or overt promises of preferential treatment, or threats concerning a student's academic status.

Sexual harassment is a prohibited personnel practice when it results in discrimination for or against a student on the basis of conduct not related to class performance, such as the taking or refusal to take student action, including passing of students who submit to sexual advances or refusal to pass students who resist or protest sexual overtures.

In fulfilling our obligation to maintain a positive and productive educational environment, the Board and District officials will make every attempt to halt any harassment of which they become aware by calling attention to this policy or by direct disciplinary action, if necessary.

If students feel they have been sexually harassed, the following steps should be taken without fear of retaliation:

Students will inform a teacher, counselor, or administrator. The employee will immediately inform, in writing, security personnel of the incident and turn any investigation over to security.

Sexual misconduct with any inmate student is a felony. It is no defense that the conduct was consensual.

STAFF

Sexual harassment is prohibited by state and federal law and will not be tolerated. Sexual harassment is defined as: Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature.

Any employee bringing a sexual harassment complaint will not be adversely affected in terms and conditions of employment, or discriminated against or discharged because of the lodging of a complaint.

Any employee found to have violated this policy shall be subject to appropriate disciplinary action, up to and including discharge.

Policy Name:	DRUG FREE POLICY STATEMENT	Policy Code:	GBRABC

Employees who test positive for drugs or alcohol will be immediately relieved of duty. ADC policy will be followed in regard to follow-up procedures for testing. No outside employment or activities during the work day of the employee shall be allowed by the Board. Any employee who represents any particular company must refrain from recommending the product he/she sells during the time he/she is employed.

The time referred to in the paragraph above, "while he/she is in the employment of the District", refers to the time covered by the contract of the employee. That is, if the teacher's or other employee's contract is for nine months, the policy applies to those nine months and not to the three months not included in the contract. The teacher or employee may use the time not covered by the contract according to his/her own desire so long as it is not out of character with the dignity of the teaching profession.

Teachers on leave for this purpose may also request and be granted a 12 month extension in time to permit a second year in such assignment. Upon returning to the District school system, the teacher will not ordinarily be granted another leave of absence for this same purpose until five additional years of teaching in the District schools are completed.

Policy Name:	LEAVE OF ABSENCE WITHOUT PAY	Policy Code:	GBRI
		Date Adopted:	2/17/12

An employee may request a continuous leave of absence without pay not to exceed six months unless granted in accordance with the provisions of military leave. The leave is granted at the discretion of the Superintendent. However, leave without pay is not to be granted until all of the employee's accumulated annual leave has been exhausted; leave of absence without pay due to illness shall not be granted until all of such employee's accumulated sick leave has been exhausted.

Any employee on leave of absence without pay does not accumulate leave time, participate in group insurance programs in which the state contributes, nor receive pay for any legal holidays. However, this does not preclude an employee's paying the total cost of the insurance program during leave and being fully covered in the program until return to duty.

At the expiration of such leave, the employee is to be reinstated without loss of any rights, unless the position is no longer available due to a budgetary reduction in staff. Employees' eligibility dates do not change as a result of leave without pay. However, step increases may be delayed at the option of the district. Failure on the part of the employee to report promptly at the expiration at the leave of absence, except for satisfactory reasons submitted in advance, is cause for dismissal.

The establishment of leave records and internal leave procedures are the responsibility of the district. Internal policy and procedures may cover such things as requesting leave or length of leave without pay. All employees should be informed of any internal policy and procedure as well as statewide policy and procedure.

Policy Name:	ILLNESS Page 1 of 2	Policy Code:	GBRIB (Also GCRIB)
		Date Adopted:	2/17/12

SICK LEAVE - Sick leave is a form of insurance benefit which is available to employees. Unlike annual leave, however, sick leave can only be used whenever the employee is unable to work because of sickness, injury or for medical, dental or optical treatment. Sick leave may also be granted to the employees due to the death or serious illness of a member of the employee's immediate family. Immediate family means the father, mother, sister, brother, spouse, child, grandparents, in-laws or any individual acting as a parent or guardian of the employee. If your spouse is ill and your participation in the treatment is necessary, an employee must obtain a written statement from a doctor to that effect and present same to their supervisor. Others may be considered immediate family due to special circumstances. Like an insurance policy, the benefits provided the employee are contingent upon the occurrence of one of the above events. An employee shall be required to furnish a statement from an attending physician for five or more consecutive days of sick leave. If the event never occurs, the employee is not entitled to the sick leave benefits.

An employee working in a regular salary position accrues sick leave at the rate of one day for each complete month or major portion of a month of service, up to a maximum of 120 days. Employees working less than full-time but more than 1,000 hours per year in a regular salary position accrue sick leave in the same proportion as time worked. Example: Employees working half-time would accrue one-half day per month. Sick leave may not be accumulated during a period of leave without pay when such leave totals ten or more days within a calendar month.

When an employee is laid off due to budgetary reasons or curtailment of activities and is reinstated within six months, accrued sick leave may be restored.

Sick leave is granted on the basis of work days, not calendar days and is deducted from the employee's accrued sick leave in increments of not less than one hour.

Non-work days such as weekends and holidays falling within a period of sick leave are not charged as sick leave.

Absence due to illness or disability is charged in the following order :(1) Earned sick leave (2) earned annual leave, (3) leave without pay.

The Superintendent may require a statement from a medical doctor, or other acceptable proof that the employee was unable to work to the end that there will be no abuse of sick leave privileges. The Superintendent shall require a physician's verification of sick leave when an absence exceeds five continuous days or when an absence indicates need for verification.

Policy Name:	ILLNESS Page 2 of 2	Policy Code:	GBRIB (Also GCRIB)
		Date Adopted:	2/17/12

Maternity leave is to be treated as any other leave for sickness or disability. The employee may elect to take leave of absence without pay in the case of maternity leave without having to exhaust accumulated annual and sick leave.

Request for sick leave must be made in advance. However, if the nature of the illness makes this impossible, the employee must notify the unit Principal /head teacher no later than the normal time to report for work. Principals/Head Teachers must notify the Superintendent and/or the Deputy Superintendent. Failure to do this will result in the employee being charged with sick leave. Application for sick leave must be filed within two days after the employee returns to work. In addition, the employee shall be required to furnish a statement from an attending physician for an absence of more than five consecutive days of sick leave. Administrators may require a doctor's statement for an absence due to illness or injury if they have reason to believe or suspect that an abuse of the sick leave policy is being committed or unusual circumstances exist. If notification is not made in accordance with this procedure, the absence will be charged to annual leave or leave without pay at the discretion of the Superintendent. Employees are urged not to abuse the sick leave policy. Continued abuse may result in disciplinary action.

Employees transferring between state agencies and/or state institutions of higher education, without a break in service, shall at the time of transfer, retain all accumulated sick leave credits.

The establishment of leave records and internal leave procedures are the responsibility of the district. Policy and procedures covering such things as requesting leave, approving authority or use of sick leave may be covered.

B. For purposes of this section, the employee's daily salary shall be determined by dividing the annual salary by the number of contract days.

C. In no event shall an employee receive an amount that exceeds seven thousand five hundred dollars (\$7,500) upon retirement due to the provisions of this section. Employees shall receive compensation for unused sick leave one time during their tenure with the Correctional School System.

The Board considers that the school district has proprietary rights to publications, instructional materials, and devices prepared by district employees during their paid work time. However, the Board also recognizes that importance of encouraging its professionals' writing, research, and other creative endeavors.

When original materials are developed by employees or staff committees during working time, or as part of regular or special assignments for which they are paid, the district will have sole rights in matters of publication or reproduction. However, the district will clearly recognize and note the identity of the employee(s) who created the materials.

When original instructional materials have been developed partially during working time or as part of a paid assignment and partially during the staff member's own time, arrangements will be made for the appropriate assignment of rights and any profits.

However, a staff member may use his/her background of knowledge of District programs and operations in professional writing of any type, without the Board claiming any rights to the materials or authority to approve them prior to publication, except that articles purporting to represent district policy will be cleared by the Superintendent who may, if the subject warrants, seek Board clearance.

Policy Name:	STAFF JOB ACTIONS	Policy Code:	GBUAA
		Date Adopted:	2/17/12

It is the intent of the Board to ensure that district education programs function without interruption. For this reason it will seek to ensure that contracts which are in force with the district are fulfilled. As much or as little recourse will be entered into as is necessary for the Board to fulfill its obligations and responsibilities to district citizens.

Any employee who conducts himself in a manner which is disruptive to district educational programs and/or violates the provisions of his/her contract with the district subjects himself willfully to the possibility of legal action by the Board. An employee who breaches his/her individual contract has, in essence, terminated his/her employment with the district. It is the responsibility of every administrator to ensure that the obligations and responsibilities of the Board are fulfilled as the Board directs.

In the event of any disruptive actions by staff groups, emergency personnel regulations will go into effect.

Policy Name:	PROGRAM EVALUATIONS	Policy Code:	GBUB

Policy Name:	SEX DISCRIMINATION/ HARASSMENT OF STUDENTS	Policy Code:	GCR (Also GBRAA)
		Date Adopted:	5/18/06

Sexual harassment and other forms of sex discrimination, is a form of employee misconduct that undermines the integrity of the employee-student relationship. All students must be allowed to pursue their education in an environment free from unsolicited and unwelcome sexual overtures.

Sexual harassment does not refer to occasional compliments. It refers to behavior that is not welcome, that is personally offensive, that debilitates student morale, and that therefore interferes with the study habits of its victims and their fellow students. Sexual harassment may include actions such as:

1. Verbal sex-oriented "kidding", insults, or subtle pressure for sexual activity.
2. Physical contact such as patting, pinching, or constant brushing against another's body.
3. Demands for sexual favors, accompanied by implied or overt promises of preferential treatment or threats concerning a student's academic status.

Sexual harassment is a prohibited personnel practice when it results in discrimination for or against a student on the basis of conduct not related to class performance, such as the taking or refusal to take student action, including passing of students who submit to sexual advances or refusal to pass students who resist or protest sexual overtures.

In fulfilling our obligation to maintain a positive and productive educational environment, the Board and District officials will make every attempt to halt any harassment of which they become aware by calling attention to this policy or by direct disciplinary action, if necessary.

If students feel they have been sexually harassed, the following steps should be taken without fear of retaliation:

1. Inform a teacher, counselor, or administrator.
2. Write a detailed account of the incident including the date, time, place and witness(es), if any.

This information will then be forwarded to the principal's/dean of students' office for review and possible disciplinary action.

When an employee has a Workmen's Compensation claim to file, he/she should file the claim in the Superintendent's office.

SICK LEAVE - Sick leave is a form of insurance benefit which is available to employees. Unlike annual leave, however, sick leave can only be used whenever the employee is unable to work because of sickness, injury or for medical, dental or optical treatment. Sick leave may also be granted to the employees due to the death or serious illness of a member of the employee's immediate family. Immediate family means the father, mother, sister, brother, spouse, child, grandparents, in-laws or any individual acting as a parent or guardian of the employee. If your spouse is ill and your participation in the treatment is necessary, an employee must obtain a written statement from a doctor to that effect and present same to their supervisor. Others may be considered immediate family due to special circumstances. Like an insurance policy, the benefits provided the employee are contingent upon the occurrence of one of the above events. An employee shall be required to furnish a certificate from an attending physician for five or more consecutive days of sick leave. If the event never occurs, the employee is not entitled to the sick leave benefits.

An employee working in a regular salary position accrues sick leave at the rate of one day for each complete month of service, up to a maximum of 120 days. Employees working less than full-time but more than 1,000 hours per year in a regular salary position accrue sick leave in the same proportion as time worked. Example: Employees working half-time would accrue one-half day per month. Sick leave may not be accumulated during a period of leave without pay when such leave totals ten or more days within a calendar month.

When an employee is laid off due to budgetary reasons or curtailment of activities and is reinstated within six months, accrued sick leave may be restored.

Sick leave is granted on the basis of work days, not calendar days and is deducted from the employee's accrued sick leave in increments of not less than one hour.

Non-work days such as weekends and holidays falling within a period of sick leave is not charged as sick leave.

Absence due to illness or disability is charged in the following order:(1) Earned sick leave (2) earned annual leave, (3) leave without pay.

The Superintendent may require a statement from a medical doctor or other acceptable proof that the employee was unable to work to the end that there will be no abuse of sick leave privileges. The Superintendent shall require a physician's verification of sick leave when absence exceeds five continuous days or when absence indicates need for verification.

Employees who are absent from work due to temporary occupational injury or illness and who are entitled to Worker's Compensation Benefits may, upon proper application, utilize their accrued sick leave as a supplemental to Worker's Compensation so as to receive weekly benefits from both sources equal to but not in excess of their normal weekly pay at the time of injury or onset of illness. This option, when exercised, will reduce the employee's accrued sick leave on a proportional basis. For example, an employee's normal weekly pay is \$130.00. He/she is receiving \$65.00 per week Worker's Compensation and elects to receive an additional \$65.00 sick leave. Therefore, he/she used sick leave at a rate of one-half which is two and a half days for each week of disability. Please check with the Central Personnel Office before cashing a Worker's Compensation check. This is necessary to ensure you do not receive payments from both Worker's Compensation and the district totaling more than your normal weekly rate of pay. Should this happen, you will be required to reimburse the district for the amount of overpayment.

Employees receiving Worker's Compensation benefits for a permanent disability are eligible for full pay from both sources.

Maternity leave is to be treated as any other leave for sick ness or disability,

Request for sick leave must be made in advance. However, if the nature of the illness makes this impossible, the employee must notify the unit principal/dean of students/head teacher no later than the normal time to report for work. Failure to do this will result in the employee being charged with sick leave. Application for sick leave must be filed within two days after the employee returns to work. In addition, the employee shall be required to furnish a certificate from an attending physician for five or more consecutive days of sick leave. Administrators may require a doctor's statement for an absence due to illness or injury if they have reason to believe or suspect that an abuse of the sick leave policy is being committed or unusual circumstances exist. If notification is not made in accordance with this procedure, the absence will be charged to annual leave or leave without pay at the discretion of the superintendent. Employees are urged not to abuse the sick leave policy. Continued abuse may result in disciplinary action.

Employees transferring between state agencies and/or state institutions of higher education, without a break in service, shall at the time of transfer, retain all accumulated sick leave credits.

The establishment of leave records and internal leave procedures are the responsibility of the district. Policy and procedures covering such things as requesting leave, approving authority or use of sick leave may be covered.
